# About me

With over **10+ years** of experience with professional hands-on iOS development and **4+ years** of experience with Flutter Hybrid App development.

I bring a wealth of expertise in developing high-quality applications using Objective-C, Swift, SwiftUI and Dart.

My proficiency spans multiple architectures, including MVVM, MVC, and Clean Architecture, ensuring robust and scalable app development.

I possess strong proficiency in iOS and Flutter development. I promise I can meet all your mobile app needs.

# Here's how I can assist:

- **Troubleshoot Issues:**

With a sharp eye for detail and strong problem-solving abilities, I can tackle tough bugs, ensuring your app is more reliable.

- **Enhance Quality:**

My aim is to provide outstanding mobile apps that not only meet but surpass your expectations, realizing your vision.

- **Innovative Concepts:**

I offer a fresh, creative outlook on your project, providing new ideas and efficient solutions to rejuvenate your app.

# I can support you with the following:

- I am adept at integrating advanced security protocols and ensuring that all applications adhere to the highest standards of data protection and privacy.
- Building cross-platform apps using Flutter for iOS, Android.
- Publishing apps to the Apple and Google Play stores.
- Implementing Flutter platform channel libraries to interface with native iOS, Android.
- Proficiency with XcodeIDE, AndroidStudio, iPhoneSDK, SPM, Cocoa-pods & Plugin Integrations

# Technical Skills:

- **Programming Languages:** Objective-C, Swift, SwiftUI, Dart, and C.
- **Frameworks:** UIKit, Combine, Flutter, AVFoundation, CallKit, PushKit, CoreData, CoreLocation, HealthKit and so on.
- **Design Patterns:** MVC, MVVM, Clean Architecture+MVVM.
- **Database:** SQLite, CoreData and Realm.
- **Testing:** Unit, UI, Performance and Security.
- **Version Control:** Gitlab, Github, Bit bucket and SVN.

# Projects

*“Make it **work**, make it **right**, make it **fast**.”*

*– Kent Beck*
